

Welcome to the Chester County Chapter of Galaxy Explorers!

Galaxy Explorers (non-profit org.) provides a fun way to explore space science! Open to boys and girls in grades 3 – 9, Explorers will participate in activities focused on space science, earth science, engineering, and rocketry.

Cool activities include:

- rocket building/launching
- astronomy
- Meteorology
- Robotics

Galaxy Explorers local chapter is sponsored by Exton-based Analytical Graphics, Inc. (AGI) – the leading developer of software analysis tools for the aerospace industry. Our team leader and point of contact is Ms. Lisa Velte. She can be reached at 610-981-8060 or lvelte@agi.com. Please contact him to register your child or for any general inquiries.

Our chapter hosts meetings on the second Saturday of each month during the school year at AGI – 220 Valley Creek Blvd., Exton, PA 19341. These two hour events include hands-on activities (e.g. egg drop, box-car derby, model rocket building). We also host special events throughout the year in coordination with local organizations such as West Chester University. In addition to regularly-scheduled sessions, FOGE hosts may special events including different summer camps. Please refer to www.foge.org for more information. Also on the website, you will find links to our local chapter's schedule, educational resources for your children, and much, much, more!

On top of participating in our program, your \$20 annual membership will earn you discounts to our online store (e.g. model rocketry products, space software), invitations to FOGE special events and parties, monthly electronic newsletter, subscription to our official magazine, official Galaxy Explorers ID card, and much more!

Thank you for being a part of our great cause!

Explore Science - Explore the Universe - Join Galaxy Explorers!
